

# Huynh Tan Dat

## Full Stack Developer

**Address:** Ho Chi Minh city  
**Phone:** (+84) 36 495 3165  
**Email:** [maxhuynh.work@gmail.com](mailto:maxhuynh.work@gmail.com)  
**Github:** [MaxHuynh-Dev](https://github.com/MaxHuynh-Dev)  
**Linkedin:** [maxhuynh-dev](https://www.linkedin.com/in/maxhuynh-dev)

Proactive **Full Stack Developer** with over 2 years of experience, specializing in building scalable, high-performance web applications. Proficient in both front-end and back-end development using **Next.js, TypeScript, Node.js, and Express.js**. Experienced in designing and optimizing database architectures with **MySQL and MongoDB**, while maintaining the ability to translate complex UI/UX designs into pixel-perfect code using GSAP. Highly skilled in research and problem-solving, with a strong commitment to continuous learning and delivering quality results under pressure.

## Education

---

### Can Tho University

2018 – 2022

**Major:** Information Technology High Quality  
**Level:** Bachelor Of Information Technology Engineer  
**GPA:** 3.12/4.0

**Graduation Thesis:** Building a self-assessment report writing support System module: compilation of content.

**Role:** I took charge of the front-end UI development, contributed to MongoDB database design, led the creation of a self-assessment reporting module for CTU officials, implemented robust user permission controls for secure website access, and effectively delegated tasks to enhance team efficiency.

### Technology:

- Operating systems hosting: Vercel

- UI frameworks: React.js + Ant Design
- Back End: Express.js + MongoDB

## Experience

---

### Autonomous Inc

May 2023 – Present

**Position:** Front End Developer

**Location:** Ho Chi Minh City

#### Responsibilities:

- Collaborated with the project manager to track team progress and coordinate task delegation, ensuring timely project delivery.
- Developed and maintained responsive landing pages using Next.js, translating design concepts into high-quality code.
- Integrated RESTful APIs from the back-end to ensure seamless data flow and dynamic UI updates.
- Contributed to smart contract development, collaborating with blockchain engineers to implement Web3 features.

### HiCAS Ltd

June 2022 – July 2022

**Position:** Front End Developer – Intern

**Location:** Ho Chi Minh City

#### Responsibilities:

- Assisted in developing responsive layouts for company projects, ensuring accurate implementation of design specifications.
- Contributed to UI/UX optimization, helping to improve website usability and visual consistency.
- Collaborated with the back-end team to integrate APIs and bind data to the user interface effectively.

## Projects

---

## **Mark Woodland - 2025 & Soluis - 2025**

Link Preview: <https://markwoodland.com.au/>

Link Preview: <https://soluis.com>

Next.js, TypeScript, Chakra UI, GSAP, Strapi v5 CMS

### **Responsibilities:**

- Developed pixel-perfect user interfaces based on Figma designs, ensuring 100% responsiveness and cross-browser compatibility across all devices.
- Integrated Strapi v5 CMS to design dynamic content structures and streamline data management for the website.
- Implemented advanced animations using GSAP, enhancing user engagement and interactive experience.
- Optimized website performance for production, achieving high scores in speed and accessibility metrics.

## **Hylux - 2024**

Website introducing technology solutions.

**Link Preview:** <http://hylux.nl>

Next.js, TypeScript, GSAP, Strapi CMS

### **Key Responsibilities:**

- Developed high-fidelity user interfaces using Next.js and TypeScript, ensuring a seamless experience across all devices.
- Implemented responsive design principles, guaranteeing optimal display and performance on mobile, tablet, and desktop.
- Managed content architecture in Strapi CMS, defining data structures to support dynamic website content.
- Refined the application based on stakeholder feedback, proactively resolving issues to improve overall product quality.

## **Defiant - 2024**

Website to introduce an agency.

**Link Preview:** <https://defiant.vc>

Next.js, GSAP, Zustand, TypeScript

### **Responsibilities:**

- Translated creative designs into functional code, strictly adhering to design systems and UI guidelines.
- Ensured seamless mobile responsiveness, optimizing layout shifts and touch interactions for a smooth user experience.
- Managed global state using Zustand to handle complex application logic efficiently.

## SystemOne Software – 2024

Website for introducing software for every artist booking agency.

**Link Preview:** <https://www.systemonesoftware.com>

Webflow, TypeScript, GSAP

### Responsibilities:

- Developed custom interfaces in Webflow, extending functionality with TypeScript to meet specific client requirements.
- Ensured full responsiveness, conducting rigorous testing to guarantee consistent behavior on desktops, tablets, and mobile devices.
- Synchronized CMS data within Webflow to maintain up-to-date and dynamic website content.

## Competencies

---

**Languages:** Html, Css, Sass, JavaScript – TypeScript, Solidity

**Frameworks:** React.js, Next.js, Express.js

**Database:** MySQL, MongoDB

**APIs:** REST API, WebSockets

**Design:** Figma, Photoshop

**Tools:** Trello, GIT

**Other:** Knowledge of web animation

Knowledge GSAP animation

Good Responsive Design, Knowledge Ant Design, Tailwind CSS, Chakra UI

Familiar with UX/UI & SEO

Familiar with Webpack

Server Management: Digital Ocean, Docker, Vercel

**Website builder tools:** Webflow, Strapi CMS, Builder.io

**Languages:** Vietnamese (native), English
